

DigiREC

where performance matters

DigiREC, the latest innovative addition to DAT Optic's product lines, is packed with advance technology. The compact DigiREC transforms a notebook or desktop PC into an entertainment center. The built-in mini TV tuner and 480 Mbps high speed USB 2.0 interface enables the direct viewing of video media or TV shows on a notebook or desktop PC.

DigiREC also has the ability to record video files and TV shows in DVD quality. The bundled MPEG-1/MPEG-2 Encode software allows effortless recording of favorite video files or TV programs. MPEG editor can be used to edit video files. The edited video files can be burned onto a DVD with DVD Maker.

DigiREC does not require an external power source. Its low power consumption design enables it to use USB bus power. DigiREC comes with a slim 28 key remote control. It is as functional and as convenient as a regular TV remote control.
